

International Student Financial Statement

In order to obtain your F-1 Visa, please complete the following information as soon as possible.

International students must document their ability to meet all educational and living expenses for the first year of their intended study before The School of Architecture can issue a Certificate of Visa Eligibility (form I-20) per immigration regulations. Although you must only show proof for the first year of study, funding must be available for your entire course of study from your personal funding sources. International students are NOT eligible for financial aid and U.S. Federal immigration regulations severely restrict international student employment so students should not expect to subsidize their studies by earning income in the United States.

INSTRUCTIONS:

Part I: Answer all questions in Part I completely.

Part II: In the first column, indicate the source(s) of your funding. In the column headed Year 1, indicate the amount (in U.S. dollars) available for each year of study. Each sponsor must verify these amounts by signing the form. Be sure to include supplementary documents as indicated and provide official documentation of funding. Please note that if you send originals by mail, you must retain a set of originals for your visa interview. The originals sent to the campus will not be returned. All documentation must be dated within six (6) months of the date of initial enrollment at The School of Architecture. The School of Architecture has provided you with an estimate of their annual education and living costs for international students. You must document financial support equal to or greater than this amount. Tuition and fee estimates, as well as cost of living expenses, are subject to change without notice and will usually increase each year. Students must be prepared to meet these increases.

SOURCE OF FUNDS – REQUIRED DOCUMENTATION: **Please provide in English and in US dollars.
